MANAGEMENT REPORT

June 30, 2022

The Directors of dnA S.A. hereafter (the “Company”) (each a “Director” and collectively the “Board”) present their half-year report and the accounts for the first semester from January 1, 2022 to June 30, 2022.

1) Activities and business development review

The Company was created May 6, 2011. The corporate objects of the Company are to enter into, perform and serve as a vehicle for, any transactions as permitted under the Securitisation Law of March 22, 2004 (the “Securitisation Law”).

No new compartment has been launched during the course of the semester.

The total nominal amount issued since the Company was created, amounts to EUR 681,251,500.00.

As at June 30, 2022, all notes issued have matured according to their terms and conditions. The bank accounts of the last three compartments dnA (LU) Quarterly Best Value July 2021 Crédit Agricole Nord Est, CRELAN dnA (LU) Euro Equity Low Risk September 2021 and CRELAN dnA (LU) Health Care October 2021 which have matured during the course of the second semester of 2021, have been closed the 21st of April 2022 after the payment of all outstanding expenses.

The Company does not exercise any research and development activities, has no branches and does not acquire its own shares.

2) Post Balance Sheet events

None.

3) Main Risk Factors

As far as the investments made by the Company’s compartments are concerned:

- the notes issued by a given compartment are fully hedged by the pool of assets comprised in this compartment. Specifically, variation in the performance swaps value is fully mitigated by the related change in the repayable amount of notes issued under a given compartment;
- credit risk linked to investments in bonds and term deposits is limited to financial institutions that are totally or partially, directly or indirectly, owned by members of the Crédit Agricole Group;

Amundi Finance S.A. is the sole swap counterparty of the Company. It is owned by Amundi (23.87%) and by Amundi Asset Management (Amundi AM - 76.13%), Amundi being itself a subsidiary of Crédit Agricole group (69.46%). 29.66% of Amundi share capital is held in free float on the Paris stock exchange, 0.75% is owned by employees of the Amundi group ⁽¹⁾ and 0.13% by treasury shares. Amundi AM is 100% owned by Amundi.

⁽¹⁾ The capital increase reserved to employees took place on 29 July 2021. 0.5 million new shares were created, bringing the portion of capital owned by employees to 0.75%.

MANAGEMENT REPORT (continued)

June 30, 2022

4) Future Developments

The Board of Directors decided to keep the possibility of creating new compartments if favourable opportunities arise. It is not planned to liquidate the Company within twelve months from the date of approval of the 2021 annual accounts, which were prepared on a going concern basis.

5) Corporate Governance

The Company has engaged CACEIS Bank Luxembourg Branch, a bank regulated in Luxembourg as corporate servicer to perform financial reporting. Thus, internal control and risk management systems over the financial reporting process are those applied by the corporate servicer and supervised by the Board of Directors of the Company.

The controls environment over financial reporting follows the relevant control processes and procedures of the corporate servicer. The controls environment of the corporate servicer including controls over the financial reporting process are subject to an annual external validation in the form of an ISAE 3402 report.

The Company, Amundi Finance S.A., its unique shareholder, and several of its services providers are subsidiaries of Amundi and/or the Crédit Agricole group and therefore benefit from the control framework defined at the Crédit Agricole S.A. level, which has been adopted by its affiliates and in particular from Amundi internal policy and procedures.

The Board has overall responsibility for the Company's system of internal control and risk management.

Mr Bianquis, member of the Board, is Head of the Structured Business Line of Amundi AM. As such, he supervises the implementation of investment procedures relating to structured products.

Mr Bosio, chairman of the Board, is the COO of Amundi Luxembourg and former Head of Amundi Finance. As such, he participated in the creation of the Company in 2011 and has strong expertise over such vehicle.

Any creation of a new compartment is submitted for approval to the Board, together with all the documentation linked to the new operation and issue of notes (Notes Prospectus, swap confirmation, cash instrument documentation ...).

Amundi AM, as Investment Manager of the assets held by each compartment of the Company implements a thorough review of the compartments' valuation on a monthly basis.

Valuations, as determined by the administrator, are systematically checked against Amundi AM calculations and any discrepancies are analyzed and resolved with the administrator. A specific procedure is set so that derivatives market prices are counter-valued by Amundi AM Quantitative Research team. Prices that are over or under a specifically determined level are submitted to a "Counter Valuation Committee".

MANAGEMENT REPORT (continued)

June 30, 2022

5) Corporate Governance (continued)

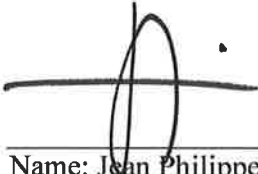

Risks are managed through the procedures implemented at the Investment Manager level that cover hedge implementation as well as financial and operational risks that may occur during the life of any compartment.

For any further information on corporate governance, internal control and risk management in the Crédit Agricole group, investors and/or Noteholders should refer to the “Universal Registration Document Annual Financial Report 2021” of Crédit Agricole S.A.

General Compartment created on May 6, 2011	Not applicable	Not applicable

The remaining cash balance of the compartments dnA (LU) Quarterly Best Value July 2021 Crédit Agricole Nord Est, CRELAN dnA (LU) Euro Equity Low Risk September 2021 and CRELAN dnA (LU) Health Care October 2021 who have matured in 2021 has been transferred to the General Compartment in April 2022 and these three compartments have been closed.

In connection with the issue of any series of notes and the related compartments, the Board of the Issuer may decide to enter into one or more related agreements, which may include, without limitation, any swap agreement, deposit agreement, repurchase agreement, total return swap agreement and/or credit support documents.

The Company has established a EUR 10,000,000,000 note programme (the "French Programme") under which it has issued obligations governed by French law until October 2012. In addition and beyond this date, the Company issued from time to time, subject to compliance with all relevant laws, regulations and directives, on a stand-alone prospectus basis obligations also governed by French law (together designated as the "French Notes"). Under the “French Programme”, there is no active compartment as at June 30, 2022.

The Company has also established a EUR 10,000,000,000 asset backed note programme (the "Programme") under which it has issued notes governed by English law until February 2013. The aggregate principal amount outstanding at any one time shall not exceed the programme size in accordance with the Trust Deed and the Dealer Agreement (the "English Notes" and together with French Notes, the “notes”). Under the “Programme”, there is no active compartment as at June 30, 2022.

General Notes (continued)

Note 2 - Summary of significant accounting policies

2.1 Basis of preparation

The Semi Annual Accounts of the Company are prepared in accordance with Luxembourg legal and regulatory requirements. Accounting policies and valuation rules are, besides the ones laid down by the Law of December 19, 2002 as amended (“Accounting Law”), determined and applied by the Board.

The Board of Directors decided to keep the possibility of creating new compartments if favourable opportunities arise. It is not planned to liquidate the Company within twelve months from the date of approval of the annual accounts which are prepared on a going concern basis.

2.2 Accounting estimates and assumptions

The preparation of Semi Annual Accounts requires the use of certain critical accounting estimates. It also requires the Board of Directors to exercise its judgment in the process of applying the accounting policies. Changes in assumptions may have a significant impact on the Semi Annual Accounts in the period in which the assumptions changed. Management believes that the underlying assumptions are appropriate and that the Semi Annual Accounts therefore present the financial position and results fairly.

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities in the next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

2.3 Foreign currency translation

The reporting currency as well as the denomination currency is Euro (“EUR”). All assets and liabilities of the Company and its compartments are expressed in EUR.

Transactions expressed in currencies other than EUR are translated into EUR at the exchange rate effective at the time of the transaction.

Cash at bank is translated at the exchange rate effective at the Balance Sheet date. Exchange losses and gains are recorded in the Profit and Loss Account of the period.

Assets and liabilities items which are fair valued are converted at the exchange rates effective at the balance sheet date. Foreign exchange differences on those items which are accounted at fair value are recognised in the Profit and Loss Account.

Other assets and liabilities which are not fair valued are translated separately respectively at the lower or at the higher of the value converted at the historical exchange rate or the value determined on the basis of the exchange rates effective at the Balance Sheet date. The unrealised exchange losses are recorded in the Profit and Loss Account. The exchange gains are recorded in the Profit and Loss Account at the moment of their realisation.

Where there is an economic link between an asset and a liability, these are valued in total according to the method described above and the net unrealised losses are recorded in the Profit and Loss Account and the net unrealised exchange gains are not recognised.

General Notes (continued)

Note 2 - Summary of significant accounting policies (continued)

2.4 Financial fixed assets

Financial fixed assets are composed of securities, other loans (term deposits) and financial derivatives held as fixed assets.

a) Securities and other loans held as fixed assets

To give a true and fair view in accordance with Article 26(3) of the Accounting Law, financial fixed assets (securities, other loans and claims) are valued at fair value applying the fair value option of Art. 64bis of the Accounting Law. The fair values are based on model prices compared to counterparties valuations and reflect the correlation with notes issued which are measured at repayable amounts. The fair value changes of financial fixed assets are calculated separately and impact the valuation of the notes issued directly. The corresponding fair value adjustments of the financial fixed assets are disclosed in the position "Value adjustments in respect of financial assets and of investments held as current assets" in the Profit and Loss Account. Note 3 to the Semi Annual Accounts provides details by compartment for each type of financial fixed assets held with the positive and the negative value adjustments and the variation of fair value of such financial fixed assets. Accrued interests are disclosed as "Other debtors" in the Balance Sheet.

The fair values are based on internal models. The method and assumptions used in determining the fair value are described in the relevant documentation and are based on discounted future cash-flows on the basis of market interest rate curves and margins (depending on maturity and issuer credit spread) at the valuation date as key variables.

Fair values of the financial fixed assets are provided by the Investment Manager of the Company who is also responsible to form and allocate the charged assets of the Company in connection with each series of notes, as specified in the applicable Final Terms or Prospectus of each compartment.

b) Financial derivatives held as fixed assets

The Company has entered into performance swap agreements as described further in Note 3.2.

The fair value of the swap agreements are taken into account in the Balance Sheet to present the true and fair view of the economic situation in the Semi Annual Accounts to reflect the correlation with notes issued in application of the fair value option of Art. 64 bis of the Accounting Law.

Positive fair values are recorded for as assets under the caption "Investments held as fixed assets" and negative fair values as liabilities under the caption "Other provisions". The value adjustments corresponding to movements in the fair values of the swap agreements are disclosed in the position "Value adjustments in respect of financial assets and of investments held as current assets" in the Profit and Loss Account. Note 3.2 to the Semi Annual Accounts provides the variations of swap agreements by compartment. Accrued interests are included in the swap fair values.

Fair value valuations of the financial derivatives are provided by the swap counterparty and are controlled by the Investment Manager according to internal valuation models and techniques. These contain standard Black-Scholes models and implied volatility calculations for vanilla optional instruments and parametric local volatility model with a time dependent functional form for exotic products and may include Monte Carlo Simulations.

General Notes (continued)

Note 2 - Summary of significant accounting policies (continued)

2.5 Debtors

Debtors are valued at their nominal value. They are subject to value adjustments where their recovery is compromised. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

2.6 Cash at bank, cash in postal cheque accounts, cheques and cash in hand

Cash at bank, cash in postal cheque accounts, cheques and cash in hand comprises current accounts. The current accounts are presented at nominal value.

2.7 Provisions

Negative fair values of the swap agreements are recorded under the caption "Other provisions".

2.8 Creditors

Creditors include non-convertible bonds and other creditors.

a) Non-convertible bonds

Non-convertible bonds are composed of notes issued recorded at their repayable amount which is directly linked to the fair values of the compartment's financial fixed assets. Corresponding changes in the repayable amount are added or deducted directly from the nominal value of the notes issued in the Balance Sheet and a gain or a loss is recognised in the Profit and Loss Account. These changes constitute an equalisation provision attributable to Noteholders.

A decrease in repayable amount is recorded as income under the label "Other operating income" and an increase of that amount is recognised as charges under the caption "Other operating expenses" (refer to Note 8). These captions also include the realised result from redemptions of notes during the financial period.

The repayable amount is closely linked to the fair value of the financial fixed assets valued according to the methods described in Note 2.4. Based on data provided by the Investment Manager, the Board of Directors of the Company values all components of the financial fixed assets and therefore the repayable amount of the non-convertible notes.

For active compartments which are not listed, the Investment Manager of the Company provides an indicative early redemption value, which may also differ from the calculated repayable amount disclosed for accounting purposes.

b) Other creditors

Other creditors are recorded at their amount repayable.

2.9 Interest income and charges

Interest income and expense are recognised on an accrual basis.

General Notes (continued)

Note 2 - Summary of significant accounting policies (continued)

2.10 Realised gains and losses on financial fixed assets

Realised gains and losses during the period as a result from sales / decrease of securities, other loans and swap agreements are computed on the basis of average cost and are recognised on a trade date basis. Realised gains are recorded under “Income from other investments and loans forming part of the fixed assets” and realised losses under “Interest payable and similar expenses” in the Profit and Loss Account.

Note 3 - Financial fixed assets

3.1 Detail of financial fixed assets

There are no financial fixed assets as at June 30, 2022 and December 31, 2021.

The tables described in notes 3.2 and 3.3 below disclose the change in unrealised gains and losses during the period. The realised gains are disclosed in note 10 whereas the realised losses are disclosed in note 12.

3.2 Swap agreements

Under the performance swap agreements, a variable amount based on the 3 or 6 month EURIBOR rate was paid by each compartment in regular intervals against the reception of a final floating amount linked to the performance of the underlying index and settled at the maturity date of the swap agreement. Such swap agreements may also contain optional components and are generally entered into at an initial value of EUR 0.00, if not stated otherwise. The fair value includes the accrued interests.

According to Note 2.4 and 2.7, the fair values of performance swap agreements are recorded under financial fixed assets (positive fair values) in the caption “Investments held as fixed assets” or “other provisions” (negative fair values):

Distributors fees

Distributors are entitled to receive a fee based on the nominal value of the non-convertible notes issued. These fees could be accrued at each valuation date of the compartments and are payable quarterly in arrears. These fees are included in the maximum percentage fees as indicated above. For certain compartments, up front distribution fees could be charged and have been fully paid upon the issuance of the non-convertible notes. For the first financial year on which such notes are issued the fees could be thus higher than the maximum percentage indicated above and are charged out of this maximum. In case of existence of such up front distribution fees the percentage in relation to the volume of notes issued are published in the product specifications sheet available to investors.

Management fees

The Investment Manager is entitled to receive a management fee based on the average nominal amount of the non-convertible notes in issue during the calculation period, accrued at each valuation date and payable quarterly in arrears.

Custodian and administrative fees

In remuneration for its custodian services, the Company pays to CACEIS Bank, Luxembourg Branch fees calculated on the total net asset value of each compartment. The total net asset value is constituted by the value of all assets less all liabilities of the compartment excluding the repayable amount of the notes issued. These fees are accrued at each valuation date and payable quarterly in arrears.
