MANAGEMENT REPORT

December 31, 2017

The Directors of dnA S.A. (hereafter the “Company”) (each a “Director” and collectively the “Board”) present their annual report and the annual accounts for the financial year from January 1, 2017 to December 31, 2017.

1) Activities and business development review

The year ended December 31, 2017 is the sixth full period of activity for the Company, created, as of May 6, 2011. The corporate objects of the Company are to enter into, perform and serve as a vehicle for, any transactions as permitted under the Securitisation Law of March 22, 2004 (the “Securitisation Law”).

Since January 1, 2017, no new compartment has been launched.

The total nominal amount issued since the Company was created, amounts to EUR 681,251,500 of which EUR 261,272,300 remain outstanding as at December 31, 2017.

During the course of the year, the Notes issued by the compartment Optimavenir 2 have matured and have been redeemed according to their terms and conditions, for a total nominal amount issued of EUR 17,728,600. Ten compartments are still active.

Due to the high level of valuation of the issued notes, secondary market repurchases have once more been significant this year.

The Company does not exercise any research and development activities, has no branches and does not acquire its own shares.

2) Post Balance Sheet events

None

3) Main Risk Factors

As far as the investments made by the Company compartments are concerned:

- the notes issued by a given compartment are fully hedged by the pool of assets comprised in this compartment. Specifically, variation in the performance swaps value is fully mitigated by the related change in the repayable amount of notes issued under a given compartment;
- credit risk linked to investments in bonds and term deposits is limited to financial institutions that are totally or partially, directly or indirectly, owned by members of the Credit Agricole Group;
- Amundi Finance S.A. is the sole swap counterparty of the Company. It is owned by Amundi (23.87%) and by Amundi Asset Management (Amundi AM - 76.13%), Amundi being itself a subsidiary of Credit Agricole group (70%). 29.8% of Amundi capital is held in free float on the Paris stock exchange and 0.2% is owned by the Amundi group employees. Amundi AM is 100% owned by Amundi.

MANAGEMENT REPORT (continued)

December 31, 2017

4) Future Developments

The opportunities to issue new products and create new compartments were still subdued this year in relation with the low level of interest rates and banks funding spreads. Formula based products are thus more difficult to build and may not be as competitive as in the past, compared to other investment wrappers. Besides, banks are less eager nowadays to benefit from the cash collected through balance sheet based products and consequently less prone to distribute such products. In the current context of low interest rate and banks spread levels, new opportunities are scarce. Any new series of notes, as the case may be, either under French or English law, would be issued on a stand-alone basis.

Other interests from institutional investors in asset backed-securities may still be studied.

5) Corporate Governance

The Board duly notes that, based on Article 52 of the law of 23 July 2016 concerning the audit profession (the “Audit Law”), the Company is classified as public-interest entity and required to establish an audit committee.

However, the Company's sole business is to act as issuer of asset-backed securities as defined in point (5) of Article 2 of Commission regulation (EC) N° 809/2004. Therefore, it is exempted from the audit committee obligation based on Article 52 (5) c).

The Company has concluded that the establishment of a dedicated audit committee or an administrative or supervisory body entrusted to carry out the function of an audit committee is not appropriate for the nature and extend of the Company's business which consists merely of an interest in assets to which the limited recourse Notes issued are linked. Furthermore, the Company operates in a strictly defined regulatory environment (e.g. Securitisation Law, CSSF supervision) and is subject to respective governance mechanisms.

The Company, Amundi Finance S.A., its unique shareholder, and several of its services providers are subsidiaries of Amundi and/or the Crédit Agricole Group and therefore benefit from the control framework defined at the Crédit Agricole S.A. level, which has been adopted by its affiliates and in particular from Amundi internal policy and procedures.

The Board has overall responsibility for the Company's system of internal control and risk management.

Mr Bianquis, member of the Board, is Head of the Structured Business Line of Amundi AM. As such, he supervises the implementation of investment procedures relating to structured products.

Mr Faucher, member of the Board, is the CEO of Amundi Luxembourg and former Head of Amundi AM Compliance. As such, he participated in the creation of the Company in 2011 and has strong expertise over such vehicle.

MANAGEMENT REPORT (continued)

December 31, 2017

5) Corporate Governance (continued)

Any creation of a new compartment is submitted for approval to the Board, together with all the documentation linked to the new operation and issue of notes (Notes Prospectus, swap confirmation, cash instrument documentation,...).

Amundi AM, as Investment Manager of the assets held by each compartment of the Company implements a thorough review of the compartment's valuation on a monthly basis.

Valuations, as determined by the administrator, are systematically checked against Amundi AM calculations and any discrepancies are analyzed and resolved with the administrator. A specific procedure is set so that derivatives market prices are counter-valued by Amundi AM Quantitative Research team. Prices that are over or under a specifically determined level are submitted to a "Counter Valuation Committee".

Risks are managed through the procedures implemented at the Investment Manager level that cover hedge implementation as well as financial and operational risks that may occur during the life of any compartment.

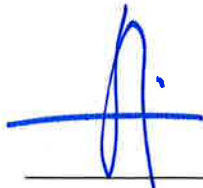

For any further information on corporate governance, internal control and risk management in the Crédit Agricole Group, investors and/or Noteholders should refer to Chapter 3 "Gouvernement d'Entreprise" in the "Document de Référence 2017" of Crédit Agricole S.A. and more specifically to section "Dispositif de contrôle interne" (p. 165) and to Chapter 5 "Facteurs de Risques et Pilier 3" (p. 194).

RESPONSIBILITY STATEMENT

December 31, 2017

Statement in accordance with article 3 of the Transparency Law of January 11, 2008 (the "Transparency Law").

Dear Sirs,

Reference is made to the annual accounts of dnA S.A. (hereafter the "Company") related to the financial year ended December 31, 2017.

In compliance with article 3 of the Transparency Law, we hereby confirm that to the best of our knowledge, the annual accounts of the Company for the financial year ended December 31, 2017 have been prepared in accordance with the applicable set of accounting standards and give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company and that the management report includes a fair review of the development and performance of the business and the position of the Company, together with a description of the principal risks and uncertainties that the Company faces.

Yours faithfully,

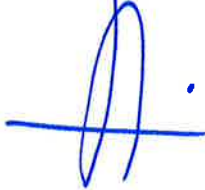

Luxembourg, April 27, 2018

Audit report

To the Board of Directors of dnA S.A.

Report on the audit of the annual accounts

Our opinion

In our opinion, the accompanying annual accounts give a true and fair view of the financial position of dnA S.A. (the “Company”) as at 31 December 2017, and of the results of its operations for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the annual accounts.

What we have audited

The Company’s annual accounts comprise:

- the balance sheet as at 31 December 2017;
 - the profit and loss account for the year then ended; and
 - the notes to the annual accounts, which include a summary of significant accounting policies.
-

Basis for opinion

We conducted our audit in accordance with the EU Regulation No 537/2014, the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under those Regulation, Law and standards are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the annual accounts” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants’ Code of Ethics for Professional Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the annual accounts. We have fulfilled our other ethical responsibilities under those ethical requirements.

To the best of our knowledge and belief, we declare that we have not provided non-audit services that are prohibited under Article 5(1) of Regulation (EU) No 537/2014.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the annual accounts of the current period, and include the most significant assessed risks of material misstatement (whether or not due to fraud). These matters were addressed in the context of our audit of the annual accounts as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the Key audit matter
-------------------------	---

Valuation of derivative financial instruments

Refer to the accounting policies “2.4 b) Financial derivatives held as fixed assets” and “2.7 Provisions”; also refer to “Note 4 Swap agreements”.

Derivative financial instruments disclosed under “Note 4 Swap agreements” amount to EUR 107.7 million in the annual accounts as at 31 December 2017. Derivative financial instruments are valued at fair value and consist of performance swap agreements, which are used to economically hedge the structured notes issued. The valuation of these derivatives is determined by using valuation models and always involves the exercise of judgement and the use of assumptions and estimates. For a full description of the valuation models applied to the derivative financial instruments, we refer to the model description included in the notes to the annual accounts. For some instruments, there is also limited availability of observable prices or rates.

We consider the valuation of the financial derivatives as key audit matter, given the magnitude of these positions and the complexity of the valuation models applied. If the estimates or assumptions used should significantly change, the resulting differences could materially affect the fair value of the derivative financial instrument.

We obtained an understanding of the valuation methodology and the processes in place with respect to the valuation of the the derivative financial instruments. This included discussing with the Management and the Management’s valuation expert on the valuation process, methodology and valuation governance structure.

We have re-performed an independent valuation for all derivatives to assess the reasonableness of the computed fair value.

With respect to the testing of inputs used for the valuation of the derivatives, this included independent sourcing of the external data and testing of reasonableness of unobservable input parameters.

We involved our internal valuation specialists to assist us in performing the above procedures. We finally assessed the adequacy of the disclosures in the annual accounts.

Other information

The Board of Directors is responsible for the other information. The other information comprises the information included in the Management Report and the Corporate Governance Statement but does not include the annual accounts and our audit report thereon.

Our opinion on the annual accounts does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the annual accounts, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the annual accounts or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors and those charged with governance for the annual accounts

The Board of Directors is responsible for the preparation and fair presentation of the annual accounts in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the annual accounts, and for such internal control as the Board of Directors determines is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the annual accounts

The objectives of our audit are to obtain reasonable assurance about whether the annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the EU Regulation No 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts.

As part of an audit in accordance with the EU Regulation No 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also:

- identify and assess the risks of material misstatement of the annual accounts, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors;
- conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the annual accounts or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the annual accounts, including the disclosures, and whether the annual accounts represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the annual accounts of the current period and are therefore the key audit matters. We describe these matters in our audit report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

The Management Report is consistent with the annual accounts and has been prepared in accordance with applicable legal requirements.

The Corporate Governance Statement is included in the Management report. The information required by Article 68ter Paragraph (1) Letters c) and d) of the Law of 19 December 2002 on the commercial and companies register and on the accounting records and annual accounts of undertakings, as amended, which is included in the Corporate Governance Statement, is consistent with the annual accounts and has been prepared in accordance with applicable legal requirements.

We have been appointed as “Réviseur d’Entreprises Agréé” of the Company by the Board of Directors on 13 May 2011 and the duration of our uninterrupted engagement, including previous renewals and reappointments, is 7 years.

Other matter

The Corporate Governance Statement includes the information required by Article 68ter Paragraph (1) Letters a), b), e), f) and g) of the Law of 19 December 2002 on the commercial and companies register and on the accounting records and annual accounts of undertakings, as amended.

Note 2 - Summary of significant accounting policies

2.1 Basis of preparation

The annual accounts of the Company are prepared in accordance with Luxembourg legal and regulatory requirements. Accounting policies and valuation rules are, besides the ones laid down by the Law of December 19, 2002 as amended (“Accounting Law”), determined and applied by the Board.

dnA S.A.
Note to the Annual Accounts - Part II (continued)
for the year ended December 31, 2017

General Notes (continued)

Note 2 - Summary of significant accounting policies (continued)

2.2 Accounting estimates and assumptions

The preparation of annual accounts requires the use of certain critical accounting estimates. It also requires the Board of Directors to exercise its judgment in the process of applying the accounting policies. Changes in assumptions may have a significant impact on the annual accounts in the period in which the assumptions changed. Management believes that the underlying assumptions are appropriate and that the annual accounts therefore present the financial position and results fairly.

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities in the next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

2.3 Foreign currency translation

The reporting currency as well as the denomination currency is Euro (“EUR”). All assets and liabilities of the Company and its compartments are expressed in EUR.

Transactions expressed in currencies other than EUR are translated into EUR at the exchange rate effective at the time of the transaction. Long-term assets expressed in currencies other than EUR are translated into EUR at the exchange rate effective at the time of the transaction. At the balance sheet date, these assets remain translated at historical exchange rates.

Cash at bank is translated at the exchange rate effective at the Balance Sheet date. Exchange losses and gains are recorded in the Profit and Loss Account of the year.

Other assets and liabilities which are not fair valued are translated separately respectively at the lower or at the higher of the value converted at the historical exchange rate or the value determined on the basis of the exchange rates effective at the Balance Sheet date. The unrealised exchange losses are recorded in the Profit and Loss Account. The exchange gains are recorded in the Profit and Loss Account at the moment of their realisation.

Where there is an economic link between an asset and a liability, these are valued in total according to the method described above and the net unrealised losses are recorded in the Profit and Loss Account and the net unrealised exchange gains are not recognised.

Assets and liabilities items which are fair valued are converted at the exchange rates effective at the balance sheet date. Foreign exchange differences on those items which are accounted at fair value are recognised in the Profit and Loss Account.

General Notes (continued)

Note 2 - Summary of significant accounting policies (continued)

2.4 Financial fixed assets

Financial fixed assets are composed of securities, other loans (term deposits) and financial derivatives held as fixed assets.

a) Securities and other loans held as fixed assets

To give a true and fair view in accordance with Article 26(3) of the Accounting Law, financial fixed assets (securities, other loans and claims) are valued at fair value applying the fair value option of Art. 64bis of the Accounting Law. The fair values are based on model prices compared to counterparties valuations and reflect the correlation with notes issued which are measured at repayable amounts. The fair value changes of financial fixed assets are calculated separately and impact the valuation of the notes issued directly. The corresponding fair value adjustments of the financial fixed assets are disclosed in the position "Value adjustments in respect of financial assets and of investments held as current assets" in the Profit and Loss Account. Note 1 and Note 3 to the annual accounts provide details by compartment for each type of financial fixed assets held with the positive and the negative value adjustments and the variation of fair value of such financial fixed assets. Accrued interests are disclosed as "Debtors" in the Balance Sheet.

The fair values are based on internal models. The method and assumptions used in determining the fair value are described in the relevant documentation and are based on discounted future cash-flows on the basis of market interest rate curves and margins (depending on maturity and issuer credit spread) at the valuation date as key variables.

Fair values of the financial fixed assets are provided by the Investment Manager of the Company who is also responsible to form and allocate the charged assets of the Company in connection with each series of notes, as specified in the applicable Final Terms or Prospectus of each compartment.

b) Financial derivatives held as fixed assets

The Company has entered into performance swap agreements as described further in Note 4.

The fair value of the swap agreements are taken into account in the Balance Sheet to present the true and fair view of the economic situation in the annual accounts to reflect the correlation with notes issued in application of the fair value option of Art. 64 bis of the Accounting Law.

Positive fair values are recorded for as assets under the caption "Investments held as fixed assets" and negative fair values as liabilities under the caption "Other provisions". The value adjustments corresponding to movements in the fair values of the swap agreements are disclosed in the position "Value adjustments in respect of financial assets and of investments held as current assets" in the Profit and Loss Account. Note 1 and Note 4 to the annual accounts provide the variations of swap agreements by compartment. Accrued interests are included in the swap fair values.

Fair value valuations of the financial derivatives are provided by the swap counterparty and are controlled by the Investment Manager according to internal valuation models and techniques. These contain standard Black-Scholes models and implied volatility calculations for vanilla optional instruments and parametric local volatility model with a time dependent functional form for exotic products and may include Monte Carlo Simulations.

General Notes (continued)

Note 2 - Summary of significant accounting policies (continued)

2.5 Debtors

Debtors are valued at their nominal value. They are subject to value adjustments where their recovery is compromised. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

2.6 Cash at bank, cash in postal cheque accounts, cheques and cash in hand

Cash at bank, cash in postal cheque accounts, cheques and cash in hand comprises current accounts. The current accounts are presented at nominal value.

2.7 Provisions

Negative fair values of the swap agreements are recorded under the caption "Other provisions".

2.8 Creditors

Creditors include non-convertible notes and other creditors.

a) Non-convertible notes

Non-convertible notes are composed of notes issued recorded at their repayable amount which is directly linked to the fair values of the compartment's financial fixed assets. Corresponding changes in the repayable amount are added or deducted directly from the nominal value of the notes issued in the Balance Sheet and a gain or a loss is recognised in the Profit and Loss Account. These changes constitute an equalisation provision attributable to Noteholders. A decrease in repayable amount is recorded as income under the label "Other operating income" and an increase of that amount is recognised as charges under the caption "Other operating expenses" (refer to Note 10). These captions also include the realised result from redemptions of notes during the financial year.

The repayable amount is closely linked to the fair value of the financial fixed assets valued according to the methods described in Note 2.4. The Board of Directors of the Company relies on the Investment Manager to value all components of the financial fixed assets and therefore the repayable amount of the non-convertible notes.

For listed notes, the market price is equal to the quoted price available on the relevant stock exchange. If such quoted price is inconsistent or if updated quoted prices are not available on the relevant stock exchange, the Investment Manager of the Company is allowed to provide a price estimation. This price may however differ from the calculated repayable amount disclosed in these Annual Accounts.

For compartments not being listed, the Investment Manager of the Company provides an indicative early redemption value, which may also differ from the calculated repayable amount disclosed for accounting purposes.

b) Other creditors

Other creditors are recorded at their amount repayable.

General Notes (continued)

Note 2 - Summary of significant accounting policies (continued)

2.9 Interest income and charges

Interest income and expense are recognised on an accrual basis.

2.10 Realised gains and losses on financial fixed assets

Realised gains and losses during the year as a result from sales / decrease of securities, other loans and swap agreements are computed on the basis of average cost and are recognised on a trade date basis. Realised gains are recorded under “Income from other investments and loans forming part of the fixed assets” and realised losses under “Interest payable and similar expenses” in the Profit and Loss Account.

Note 4 - Swap agreements

Under the performance swap agreements, a variable amount based on the 3 or 6 month EURIBOR rate is paid by each compartment in regular intervals against the reception of a final floating amount linked to the performance of the underlying index and settled at the maturity date of the swap agreement. Such swap agreements may also contain optional components and are generally entered into at an initial value of EUR 0.00, if not stated otherwise. The fair value includes the accrued interests.

According to Note 2.4 and 2.7, the fair values of performance swap agreements are recorded under financial fixed assets (positive fair values) in the caption “Investments held as fixed assets” or “other provisions” (negative fair values):

Luxembourg companies are required to allocate to a legal reserve a minimum of 5% of the annual net profit, until this reserve equals 10% of the subscribed share capital. This reserve may not be distributed. The minimum legal reserve has been reached.

Note 7 - Shares premium account

All the fees in connection with the establishment and incorporation as well as operating charges of the Company are supported by the General Compartment and refunded by a company of the Amundi group. In this perspective, the sole shareholder has made a capital contribution without the issue of shares of EUR 2,200,000.00 during the financial year ended December 31, 2012. The Company is authorised to dispose of this cash contribution as it deems necessary, in order to settle any fees and charges of any kind incurred by the Company in relation to the conduct of its business and affairs.

Distributors fees

Distributors are entitled to receive a fee based on the nominal value of the non-convertible notes issued. These fees could be accrued at each valuation date of the compartments and are payable quarterly in arrears. These fees are included in the maximum percentage fees as indicated above. For certain compartments, up front distribution fees could be charged and have been fully paid upon the issuance of the non-convertible notes. For the first financial year on which such notes are issued the fees could be thus higher than the maximum percentage indicated above and are charged out of this maximum. In case of existence of such up front distribution fees the percentage in relation to the volume of notes issued are published in the product specifications sheet available to investors.
